entarged scate and they seemed of from widely separated sources, altor the most part from the specuenters. Boston was much imit with the promise of the copper y and, together with large blocks in that group sent excited refer the volume of the new buying the state of the volume of the new buying the state of the volume of the new buying the state of the volume of the new buying the state of the volume of the new buying the state of the volume of the new buying the state of the volume of the new buying the state of the volume of the new buying the state of the volume of the new buying the state of the volume of the new buying the state of the volume of the new buying the state of the volume of the new buying the state of the volume of the new buying the state of the volume of the new buying the state of the volume of the new buying the state of the volume of the new buying the state of the new buying the state of the volume of the new buying the state of the volume of the new buying the state of the volume of the new buying the state of the volume of the new buying the state of the volume of the new buying the state of the volume of the new buying the state of the volume of the new buying the volume of the volume of the new buying the volume of the volume o ports of the volume of the new buying of copper and the rapid advance in the rice of that metal, which was in symathy. Philadelphia and Pittsburg, as sual, paid close attention to developments in the iron and steel trade, and he heavy orders for United States Steel, or the shares of the minor steel stocks and for their equipment companies and iectrical equipment companies which are correspondingly interested were attributed

espondingly interested were attributed What are called "western wire nouses" reported a clientage even more scattered throughout the west and southwest. The largest interest shown by these buyers was in the industrials, also, although demand for stocks of railroads with whose conditions they are familiar, made itself felt. Operations for foreign accounts were mixed, but influences from that side was of cheerful effect on the speculation. The speculation was dominated still further by the considerations springing from the

cheerful effect on the speculation.

street hastened to arrogate to itself a promise of exemption in these words. The incoming rush for stock orders was regarded confidently as a herald of coming developments in the industries of the country. The soothing of the friction between France and Germany was the cause of some relief and the settlement of the strike in the Lancashire cotton mills was another helpful factor from abroad. Yesterday's extra dividend declaration on Northern Pacific had its consequence in revived rumors of other intended distributions, which were without confirmation. It is significant that a review of the most recent parallels to today's large dealings finds them occurring on days of violent declines in prices. The largest day's business previous to today for the present year, was on Sept. 22, when prices broke violently, following the Maine election on sales of 1,426,000 shares. The largest day's business during the particles fall was on Oct. 22, when 1369.

The largest day's business during the panic last fall was on Oct. 22, when 1,369,-392 shares were recorded. The record sales of 1907 were 2,571,516 shares on March 14, in the culmination of what was called the silent or millionaire's panic.

New York. Nov. 6.—The speculative weement in stocks entered on a new I broader phase today in the entry into buying movement of additional forces myidely scattered sources. The ders of the speculation were prompt perceive this development and to take antage of it by manipulative devices help on the advances in prices. The ance was, in itself, an attraction to somewhat excited operations of the participants, who were apparently of class that would have withdrawn or ted if prices had moved downwards.

Today's spurt of 1,534,000 shares shows the largest sharp expansion that has occurred on rising quotations since the days of the abortive speculation on the increase in the Harriman dividends. The market's furious activity was maintained to the last and prices were still forging upwards, although with some effect from realizing sales to certain points. The day's movement showed such gains as 4 4½ for Amalgamated Copper. New York Central, Louisville & Nashville and Atlantic Soast Line; 3¼ for United States Steel "and Union Pacific; 6¼ for Great Northern Ore certificates and 10 in Laek-awanna.

Bonds were strong and active. Total sales, par value, \$8,612,000 Today's spurt of 1,534,000 shares shows

Commercial bills, 4.83¼@1½.

Bar silver, 50½.

Mexican dollars, 45.

Government bonds steady.

Railroad bonds strong.

Railroad bonds strong.

GRAIN AND PROVISIONS.

GRAIN AND PROVISIONS.

Chicago, Nov. 6.—Confirmation of the oft-repeated claims of damage to the fall sown crop of wheat because of insufficient moisture was in the form of the Ohio state report, which estimated the condition of the new crop at 56 against \$2 the corresponding time last year, and which estimated the seeded area at 76 per cent of last year's acreage. The market was also bullishly affected by further advances in the price of flax seed at Minneapolis and Duluth, which, it was maintained, were due to reports of serious damage to the Argentine crop. The inference was drawn that if the flax crop was injured by unfavorable weather, the wheat crop must also have sustained considerable damage. Export sales at Winnipeg and New York totaling sixty boatloads also helped to create a firm tone in the local market. Exporters here, however, claimed there was no prospect of any export business at present prices. The strength in the wheat pit developed during the last part of the day, prior to that sentiment being rather bearish owing to liberal receipts in the northwest. The July delivery displayed the greatest strength and closed %c higher than yesterday at \$55c. December closed at 1.00¼ and May at 1.03¾.

The corn market was weak and closed

94@124c. Sugar-Raw, firm; fair refining, 4.15; centrifugal 96 test, 3.95; molasses sugar, 3.20; refined, dull; powdered, 5.00; granu-

cember at 6140513c and May at 61206
613c.

Oats were strong. At the close prices were 4614c higher, with December at 4814 and May at 453c.

Provisions were bearishly affected by the further slump in corn and by a decline of 5 to 10c in live hogs. Sentiment in the pit was bearish all day and closing prices showed losses of 56712c to 20c, with pork showing the greatest declines.

The leading futures ranged as follows: Omaha, Nov. 6.-Cattle-Receipts, 1,500 The leading futures ranged as follows:
